By The Way, Iran Will Soon Have The Bomb

by Michael in New York on 8/23/2004 10:29:00 AM

It didn't gain much notice, but a Bush official claims Iran has boasted to Western countries like Great Britain and Germany that it will be producing nuclear material within one year and be able to have an atomic bomb of its very own in three.

That makes two out of three members of the Axis of Evil gaining or threatening action with their nuclear weapons on Bush's watch. But don't think Bush's foreign policy is a total failure. The totalitarian theocracy of Iran HAS embraced Bush's policy of attacking countries you think might someday be thinking of attacking you.

More specifically, **Iran has threatened the only democracy in the Middle East** -- Israel -- with a preemptive strike because it fears Israel might bomb those nuclear factories that it insists aren't nuclear factories at all. So Bush's philosophy is resonating -- with the Axis of Evil.
